OTHER SUPPLIES REQUIRED:

- Quilt batting
- Backing fabric 4 1/2 yds 5093-9 recommended
- All Purpose Thread

INTRODUCTION:
Read through all of the instructions before beginning your quilt. Basic knowledge of machine piecing and quilting suggested. Happy sewing!

INSTRUCTIONS:
1/4” seam allowance, press all seams towards the darker fabric.

1. Following the diagram below make each of the eighty flying geese units required for the quilt. Each unit is made from one of the large off white triangles, and two of the triangles cut from the 3 7/8” squares of background fabric. Trim excess seam allowance points after pressing the unit. It should measure 3 1/2” x 6 1/2” after pressing.

2. Complete each of the half square triangle units (HST’s) required for the quilt.
3. Mark a line on the wrong side of each off white 3 7/8” square, from corner to corner.

4. Place the marked fabric right sides together with its print fabric mate and sew two seam lines, each 1/4” away from the center marked line.
5. Cut along the marked line, press seams open and trim excess seam allowance at the corners where the excess hangs over the edge of the square. HSTs should measure 3 1/2” square at this point.

Now that your blocks are prepared you can assemble each section of the quilt. You will make four of the same large blocks to complete the quilt. Follow the guide here to piece each section. Refer to the diagram on the next page for layout, and the next step in piecing the sections.

Make eight of each of these.

Assemble HST rows in each color combination—make eight slate blue blocks, four citron blocks, and four aqua blocks with twenty HST’s in each.

Make four.
6. Assemble each block as shown below.

7. Assemble the four blocks to complete the quilt top.
8. Your quilt top is now complete! Quilt and bind as desired.
