**Additional Requirements:**

1 3/4 yards of medium weight 2 sided fusible interlining
1 pack Misty Fuse™ or other 2 sided webbing for attaching the bats to the border
Black Thread
*Note: the face fabric is enough to make the back of the runner without having to buy extra fabric. However, you may want to have a black backing to match the black bat border. In this case, increase the 37098-1 Vine Black to 1 3/4 yards.*

**Cutting:**

42905-2 Orange
  Cut (2) 60” x 18” rectangle running parallel to the selvage for face and back

37098-1 Vine Black
  Cut (6) bats using Bat Template provided

Medium weight 2 sided fusible interlining
  Cut (1) 60” x 18” strip running parallel to the selvage

Misty Fuse™
  Cut (6) bats using Bat Template provided**

**Special cutting note - It might be easier to take on of the cut bats cut from the black solid and pin it on top of 6 strips of misty fuse cut large enough to fit the bat shape. This makes it easier to handle and is faster than cutting individually.

**Special Instructions:**

Seam allowance is 1/4”
Assembly:

1. Take the 60" x 18" strip of fabric and with the right side facing up, place on a flat surface. Take the 6 bats and arrange around the border as shown. Picture 1

![Picture 1]

2. Lifting each bat one by one and put a piece of the cut Misty Fuse™ under each bat and press into place following the manufacturer’s recommended instructions for their product.

3. Once all bats are attached, place the backing with right sides facing each other on top. Machine stitch the long side without bats. Open and press seam open.

4. With wrong side up, place the 2 sided fusible interlining onto the face side and carefully fold the the backing over it. Adhere the layers following the manufacturer’s instructions.

5. Now that the face and back are attached. Using a tight zigzag stitch, sew around each bat to fully secure in place. Take your time sewing around each curve. On the ends, continue the zigzag stitch over the fabric to the seam line as bats will be about 1” shorter in length.

6. Carefully cut away the fabric on the outside edge as close to the bat edge as possible. Be careful not to cut your zigzag stitch. Press the mantle scarf to flatten edges and now it is ready to use. Picture 2

![Picture 2]
Instructions for Table Runner:
42905-2 Orange Spider Web and 37098-1 Vine Black
The yardages do not change to make the table runner instead of the mantle scarf.

Cutting:

42905-2 Orange Spider Web
  Cut (2) 60" x 20" rectangles for face and back
37098-1 Vine Black
  Cut (6) bats using Bat Template provided
Medium weight 2 sided fusible interfacing
  Cut (1) 60" x 20" strip running parallel to the selvage
Misty Fuse™
  Cut (10) bats using Bat Template

Assembly:
1. Follow steps 1 & 2 for the Mantle scarf. Add the additional 4 bats on the opposite side of the rectangle. Picture 3

2. Add the 2 sided fusible interfacing between the wrong side of the face and back like a sandwich.
3. Fuse the layers together.
4. Follow steps 5 & 6 for the mantle scarf.
TEMPLATE FOR BAT
ACTUAL SIZE

CUT 2

Cut template out on hard card stock or lightweight cardboard.
Put the 2 halves together to form the bat template.
